INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED UPON PROCEDURES

Honorable Chairman and Members
of the Board of Commissioners
The Northwest Bergen County Utilities Authority
30 Wyckoff Ave. at Authority Drive
Waldwick, New Jersey

We have performed the procedures enumerated below, which were agreed to by management of the Northwest Bergen County Utilities Authority (the "Authority" or "NBCUA"), solely to assist you in resetting the sewer connection fees effective June 16, 2020, for new users connecting to the existing NBCUA Wastewater Treatment Systems for the first time. Calculations made prior to December 31, 2012 were made by other accountants whose latest report was dated April 23, 2014.

This agreed-upon procedures engagement were conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures are solely the responsibility of those parties specified in the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures were as follows:

- Review of statute N.J.S.A. 40:14B-22 "Sewerage Service Charges" which defines the current formula and procedures for the imposition of a sewer connection fee.
- Review audits for the year ended January 1, 2023 through December 31, 2023 for State and Federal Grant funds received to determine if any amounts received were used to defease and/or pay down bonded debt previously issued.
- Compared interest expense in the audit for the year ended January 1, 2023 through December 31, 2023 to interest paid on debt service as provided in our analysis of debt information. Investigate all differences between interest expense and interest paid on debt service as provided in our analysis of debt information.

- Compared principal paid in the audit for the year ended January 1, 2023 through December 31, 2023 to principal paid on debt service as provided in our analysis of debt information. Investigate all differences between principal paid per audit and Authority financial information and principal paid on debt service as provided in our analysis of debt information.
- Reviewed the audit for the year ended January 1, 2023 through December 31, 2023 for amounts paid from Capital Outlay.
- Prepared an analysis of Equivalent Dwelling Units ("EDUs") for the Authority's Wastewater Treatment System. The NJDEP currently recognizes 300 gallons per day or 108,000 gallons per year as the average sewage flow for a single-family residence, which is 1 EDU. The number of EDUs utilized in our report was based on a five-year average of EDUs presented in sewage flow reports provided by the Authority.
- Calculate the 2025 Sewer Connection Fee Rate per EDU by dividing the total investment in the System through December 31, 2025 by the total number of EDUs.

The results of our procedures were as follows:

- The 2025 Sewer Connection Fee Rate per EDU was calculated to be \$5,757 as presented in Exhibit A.
- The total principal and interest paid by issue net of refunding for the period January 1, 1961 through December 31, 2023 is presented in Exhibit C. The total interest paid in this report is adjusted to reflect capitalized interest on applicable debt issued as indicated in Exhibit B.
- Based on a review of audits for the years ended December 31, 1961 through December 31, 2012 performed by other accountants in their report dated April 23, 2014, and our review of the audits for the period January 1, 2013 to December 31, 2023, \$3,071,137 of Federal and State Grant Funds received were used to defease bonded debt service on the 1973 A Bond Issue. In addition, \$620,000 of Federal and State Grant funds received were used to pay down the principal on the 1974 Bond Anticipation Notes. \$174,902 in Federal NJEIT funds received were used to defease bonded debt service on the 2010B bond issue. \$52,597 in Federal NJEIT funds were used to defease bonded debt service on the 2014 bond issue.
- Based on a review of audits for the years December 31, 1961 through December 31, 2012 performed by other accountants in their report dated April 23, 2014, and our review of the audits for the period January 1, 2013 to December 31, 2023, the principal and interest paid as presented in Exhibit B is reasonable when compared to amounts per audit.
- Based on a review of audits for the years ended December 31, 1961 through December 31, 2012 performed by other accountants in their report dated April 23, 2014, and our review of the audits for the period January 1, 2013 to December 31, 2023, \$27,888,204 was spent for Capital Outlay from budgeted amounts raised.

- Audits for the years ending December 31, 1967 and 1968 as well as audits prior to 1961 were not available for review.
- An analysis of debt information based upon a review of closing documents and official statements made by other accountants is presented in the appendix of this report. In addition, we made an analysis of the debt issued for the years ending December 31, 2013 through 2023.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying financial information. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters may have come to our attention that would have been reported to you. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

This report is intended solely for the information and use of the Board of Commissioners and management of the Northwest Bergen County Utilities Authority and is not intended to be and should not be used by anyone other than these specified parties.
