<p>18. NECESSITY FOR CHANGE AND REASON FOR OMISSION FROM PLANS AND SPECIFICATIONS:                  There were spoils within the work area at the Compost that had to be moved to pass machines through for the excavation of one of the jacking pits. This involved two full days of work and multiple Jersey barriers to blockade the spoils. The spoils removed belonged to and were the responsibility of the Borough of Waldwick as is the property for the work area in question. However, the Borough would not have been able to remove the spoils for weeks thereby delaying the start of the project. Next, the 60-foot tree in the resident's backyard had to be taken down because it was found during excavation that the tree roots grew directly through the proposed excavation area and would need to be severed. The tree would have been at a severe risk of falling if it was not removed. Had the tree not been removed and it fell the damage would have been extreme. For Item No. 3, the existing Chamber MHE6 was determined to be in very poor structural condition upon excavation for the slip lining work. The reinforced concrete walls had visible rebars present and were in danger of collapsing because of the high hydrogen sulfide concentrations. The chamber was in too poor shape to perform a rehab. Therefore, the manhole was replaced since there was already a bypass system in place for the slip-line work. Next, the residential brick paver walkway removed during excavation had to be replaced. The lawns also had to be re-graded and restored. Finally, the residential fence had to be replaced because it was removed and damaged for the jacking pit and manhole chamber excavations.</p>		
<p>19. OTHER IMPACTS RESULTANT OF THIS CHANGE:  None</p>		
<p>20. RESUME OF NEGOTIATIONS OR RECOMMENDATIONS (Loanee's Representative) :</p> <p>The Contractor originally asked for \$49,823.91 (see attached) to complete the work in items 1 and 2 in Section 8 above. This was negotiated down to a final total of \$22,112.16.</p> <p>Item No. 4 and 5 were also thoroughly negotiated with both the Contractor and homeowners. For example, the homeowner agreed to not paint the new fence to match the existing fence, which saved money during restoration.</p> <p>The Contractor did not ask for any time extensions and agreed to work on Saturdays to complete the project in time.</p>
