RETENTION OF BOND COUNSEL PURSUANT TO N.J.S.A. 19:44a-20.4

Attached Rate Schedule

Traditional Note Issue

With respect to work done in connection with any initial temporary financings of the Authority involving a private placement and not involving preparation of an Official Statement, Bond Counsel will receive \$25,000 for its approving opinion and 50 cents per \$1,000 of notes issued, plus out-of-pocket expenses. With respect to work done in connection with any renewal of a temporary financing of the Authority involving a private placement and not involving preparation of an Official Statement, Bond Counsel will receive \$20,000 for its approving opinion and 50 cents per \$1,000 of notes issued, plus out-of-pocket expenses. In addition, if an issue involves the financing of multiple projects through the NJEIT, there shall be an additional fee of \$4,500 for each additional NJEIT project number financed. If an Official Statement needs to be reviewed or prepared in connection with the financing, our fee for such services would be at the hourly rates set forth below.

Traditional Bond Issue

For work done and responsibilities assumed in connection with rendering the type of opinions anticipated in any permanent financings (which are competitively bid or negotiated), we would charge a base fee of \$35,000, plus \$1.10 per \$1,000 of bonds issued, plus out-of-pocket disbursements. If an Official Statement needs to be reviewed or prepared in connection with the financing, our fee for such services would be at the hourly rates set forth below. In the event of a refunding bond issue, there will be an additional fee of \$10,000.

Hourly Rates

For your general information, it is difficult to initially estimate the amount of involvement that would be required of bond counsel in the preparation of an Official Statement, the attention to litigation, special advice to be rendered regarding compliance with investment restrictions under the arbitrage regulations, the review of other unusual tax questions, the attendance at meetings, additional services in connection with the New Jersey Environmental Infrastructure Trust financing, the application for investment of proceeds in Federal Treasury obligations, State and Local Government Series or questions referred to bond counsel which arise away from a specific financing. Thus, the fee for such additional or non-transactional services would be at an hourly (time charge) basis. This fee would be calculated by multiplying the number of hours expended by each attorney and paralegal by their respective billing rate in effect at the time the work is performed. Each billing rate is based on experience and expertise and is reviewed and revised by the firm periodically. In this connection, we will furnish a schedule of hourly rates for those

individuals who work on the matter and an accounting of the aggregate amount of time expended. The present hourly rates of those attorneys and paralegals anticipated to work on your matters are as follows:

John D. Draikiwicz	\$295
Scott A. Galano	250
Steven H. Sholk	195
Suprotik Das	125
Paralegal	90

In addition to time charges, the firm will include in its billing statement out-of-pocket costs incurred in connection with the matter, including, without limitation, expenses of travel, word processing (computerized document preparation), telephone, document reproduction, postage and air freight and stenographic overtime, if required. We anticipate presenting a statement for services rendered subsequent to each note and bond issue.
